Proposal No. 3: Delegation to the Board of Directors of the Company of Determination of Subscription Requirements for Stock Acquisition Rights to Be Issued as Stock Options to Executive Officers and Employees of the Company and Directors of Subsidiaries of the Company

The Company asks for the shareholders' approval to delegate to the Board of Directors of the Company the determination of the subscription requirements for stock acquisition rights to be issued as stock options to Executive Officers and employees of the Company and directors of subsidiaries of the Company in accordance with the provisions of Articles 236, 238 and 239 of the Companies Act.

1. Reasons for issuing stock acquisition rights with particularly favorable terms and conditions:

For the purpose of further enhancing the willingness and morale to contribute to the long-term increase of corporate value of the Company's group, and seeking to increase the corporate value of the Company's group, the Company would like to issue stock acquisition rights to Executive Officers and employees of the Company and directors of subsidiaries of the Company without requiring any payment of money.

2. Features and the maximum number of stock acquisition rights, etc. for which the Board of Directors will be authorized to determine subscription requirements, based on the matters to be determined at this Meeting:

(1) The maximum number of stock acquisition rights for which the Board of Directors will be authorized to determine subscription requirements based on the delegation

The maximum number of stock acquisition rights specified in item (3) below shall be four thousand (4,000). The maximum total number of shares of common stock of the Company to be delivered upon exercise of stock acquisition rights shall be four hundred thousand (400,000). If the number of shares to be granted is adjusted as prescribed in item (3) below, however, the adjusted number of shares to be granted shall be the product of the number of shares to be granted after adjustment multiplied by the above-mentioned maximum number of stock acquisition rights.

(2) No payment of money shall be required for the stock acquisition rights for which the Board of Directors will be authorized to determine subscription requirements based on the delegation.

(3) Features of stock acquisition rights for which the Board of Directors will be authorized to determine subscription requirements based on the delegation

(a) Class and number of shares underlying stock acquisition rights

The class of shares underlying stock acquisition rights shall be common stock and the number of shares underlying each stock acquisition right (hereinafter referred to as the "Number of Shares to Be Granted") shall be one hundred (100).

If, however, the Company either effects a share split of its common stock (including allotment of its shares of common stock without contribution; the same shall apply to the share split described hereinafter) or effects a consolidation of its shares of common stock, after the date of resolution of the Meeting of Shareholders (hereinafter referred to as the "Resolution Date"), the Number of Shares to Be Granted shall be adjusted according to the formula described below. Fractions of less than one share resulting from such adjustments shall be rounded down.

$$\begin{array}{l} \text{Number of Shares to Be} \\ \text{Granted after adjustment} \end{array} = \begin{array}{l} \text{Number of Shares to Be} \\ \text{Granted before adjustment} \end{array} \times \begin{array}{l} \text{Ratio of share split or share} \\ \text{consolidation} \end{array}$$

In addition to the above, if, after the Resolution Date, any event that would force the Company to adjust the Number of Shares to Be Granted occurs, the Company shall make appropriate adjustments to the Number of Shares to Be Granted within a reasonable range.

(b) Amount of assets to be contributed upon exercise of stock acquisition rights

The amount of assets to be contributed upon the exercise of each stock acquisition right shall be the amount obtained by multiplying the amount to be paid in for one (1) share to be delivered upon exercise of stock acquisition rights (hereinafter referred to as the "Exercise Price") by the Number of Shares to Be Granted.

The Exercise Price shall be the higher of either the amount obtained by multiplying 1.025 to the average of daily closing price of the common stock of the Company in regular trading on the Tokyo Stock Exchange (hereinafter referred to as the "Closing Price") during the month (excluding dates on which no trade is made) immediately prior to the month containing the date on which stock acquisition rights are allotted (hereinafter referred to as the "Allotment Date"), with any fractions of less than ¥1 to be rounded up; or the Closing Price on the Allotment Date (or in the event that there

is no Closing Price on that date, the Closing Price on the immediately preceding day on which the Company's common stock were traded).

If the Company effects either a share split or a consolidation of its shares of common stock after the Allotment Date, the Exercise Price shall be adjusted according to the formula described below. Fractions of less than ¥1 resulting from such adjustments shall be rounded up.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Ratio of share split or share consolidation}}$$

If, after the Allotment Date, the Company issues new shares of common stock or disposes of shares of treasury stock thereof of the Company at a price lower than the market price (excluding the sale of shares of treasury stock pursuant to the provisions of Article 194 of the Companies Act [“Demand for Sale of Shares Less than One Unit by Holders of Shares Less than One Share Unit”]), the conversion of securities that shall or may be converted to shares of common stock of the Company, and the exercise of stock acquisition rights with which the delivery of shares of common stock of the Company can be requested [including bonds with stock acquisition rights]), the Exercise Price shall be adjusted according to the formula described below. Fractions of less than ¥1 resulting from such adjustments shall be rounded up.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{\text{Number of issued shares} + \frac{\text{Number of newly issued shares} \times \text{Payment amount per share}}{\text{Market price}}}{\text{Number of issued shares} + \text{Number of newly issued shares}}$$

In the formula above, “Number of issued shares” is the total number of shares of common stock issued by the Company excluding the number of treasury shares of common stock owned by the Company. In the case of the Company's disposal of treasury stock, “Number of newly issued shares” shall be replaced with “Number of shares of treasury stock to be disposed of.”

In addition to the above, if, after the Allotment Date, any event that would force the Company to adjust the Exercise Price occurs, the Company shall make appropriate adjustments to the Exercise Price within a reasonable range.
