Proposal No. 2: Delegation of Determination of Subscription Requirements for Stock Acquisition Rights to Be Issued as Stock Options to Employees of the Company and Directors of Subsidiaries of the Company to the Board of Directors of the Company

The Company asks for the shareholders' approval to delegate the determination of the subscription requirements for stock acquisition rights to be issued as stock options to employees of the Company and directors of subsidiaries of the Company to the board of directors of the Company (hereinafter referred to as the "Board of Directors") in accordance with the provisions of Articles 236, 238 and 239 of the Companies Act.

1. Reasons for issuing stock acquisition rights with particularly favorable terms and conditions:

For the purpose of further enhancing the willingness and morale to contribute to the long-term increase of corporate value of the Company's group, and seeking to increase the corporate value of the Company's group, the Company would like to issue stock acquisition rights to employees of the Company and directors of subsidiaries of the Company without requiring the payment of monies.

2. Features and the maximum number of stock acquisition rights, etc. of which the Board of Directors will be authorized to determine subscription requirements, based on the matters to be determined at this Meeting:

(1) The maximum number of stock acquisition rights of which the Board of Directors will be authorized to determine subscription requirements based on the delegation

The maximum number of stock acquisition rights specified in item (3) below shall be one thousand nine hundred (1,900).

The maximum total number of shares of common stock of the Company to be delivered upon exercise of stock acquisition rights shall be one hundred and ninety thousand (190,000). If the number of shares to be granted is adjusted as prescribed in item (3) below, however, the adjusted number of shares to be granted shall be the product of the number of shares to be granted after adjustment multiplied by the above-mentioned maximum number of stock acquisition rights.

(2) No payment of monies shall be required for the stock acquisition rights of which the Board of Directors will be authorized to determine subscription requirements based on the delegation.

(3) Features of stock acquisition rights of which the Board of Directors will be authorized to determine subscription requirements based on the delegation

(a) Class and number of shares underlying stock acquisition rights

The class of shares underlying stock acquisition rights shall be common stock, and the number of shares underlying each stock acquisition right (hereinafter referred to as the "Number of Shares to Be Granted") shall be one hundred (100).

If, however, the Company either effects a share split of its common stock (including allotment of its shares of common stock without contribution; the same shall apply to the share split described hereinafter) or effects a consolidation of its shares of common stock, after the date of resolution of the Shareholders' Meeting (hereinafter referred to as the "Resolution Date"), the Number of Shares to Be Granted shall be adjusted according to the formula described below. Fractions of less than one (1) share resulting from such adjustments shall be rounded down.

$$\text{Number of Shares to Be Granted after adjustment} = \text{Number of Shares to Be Granted before adjustment} \times \text{Ratio of share split or share consolidation}$$

In addition to the above, if, after the Resolution Date, any event that would force the Company to adjust the Number of Shares to Be Granted occurs, the Company shall make appropriate adjustments to the Number of Shares to Be Granted within a reasonable range.

(b) Amount of assets to be contributed upon exercise of stock acquisition rights

The amount of assets to be contributed upon the exercise of each stock acquisition right shall be

the amount obtained by multiplying the amount to be paid in for one (1) share to be delivered upon exercise of stock acquisition rights (hereinafter referred to as the “Exercise Price”) by the Number of Shares to Be Granted.

The Exercise Price shall be the higher of either the product of the multiplication of the average of daily closing price of the common stock of the Company in regular trading on the Tokyo Stock Exchange (hereinafter referred to as the “Closing Price”) during the month (excluding dates on which no trade is made) immediately prior to the month containing the date on which stock acquisition rights are allotted (hereinafter referred to as the “Allotment Date”) by 1.025, with any fractions of less than one (1) yen to be rounded up; or the Closing Price on the Allotment Date (or in the event that there is no Closing Price on that date, the Closing Price of the immediately preceding day on which the Company’s common stock were traded).

If the Company either effects a share split or a consolidation of its shares of common stock after the Allotment Date, the Exercise Price shall be adjusted according to the formula described below. Fractions of less than one (1) yen resulting from such adjustments shall be rounded up.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{1}{\text{Ratio of share split or share consolidation}}$$

If, after the Allotment Date, the Company issues new shares of common stock or disposes of shares of treasury stock thereof of the Company at a price lower than the market price (excluding the sale of shares of treasury stock pursuant to the provisions of Article 194 of the Companies Act [“Demand for Sale of Shares Less than One Unit by Holders of Shares Less than One Share Unit”]), the conversion of securities that shall or may be converted to shares of common stock of the Company, or the exercise of stock acquisition rights with which the delivery of shares of common stock of the Company can be requested (including stock acquisition rights attached to bonds with stock acquisition rights), the Exercise Price shall be adjusted according to the formula described below. Fractions of less than one (1) yen resulting from such adjustments shall be rounded up.

$$\text{Exercise Price after adjustment} = \text{Exercise Price before adjustment} \times \frac{\text{Number of issued shares} + \frac{\text{Number of newly issued shares} \times \text{Payment amount per share}}{\text{Market price}}}{\text{Number of issued shares} + \text{Number of newly issued shares}}$$

In the formula above, “Number of issued shares” is the total number of shares of common stock issued by the Company excluding the number of treasury shares of common stock owned by the Company. In the case of the Company’s disposal of treasury stock, “Number of newly issued shares” shall be replaced with “Number of treasury stock to be disposed of.”

In addition to the above, if, after the Allotment Date, any event that would force the Company to adjust the Exercise Price occurs, the Company shall make appropriate adjustments to the Exercise Price within a reasonable range.

(c) Period during which stock acquisition rights may be exercised

From the day following the 2-year anniversary of the Allotment Date to March 31, 2022

(d) Matters concerning increases in capital and capital reserve when shares are issued upon exercise of stock acquisition rights

- i. The amount of capital to be increased by the issuance of shares upon exercise of stock acquisition rights shall be one-half of the maximum amount of increase in capital etc., which is calculated in accordance with Article 17, paragraph (1) of the Corporate Accounting Rules. Fractions of less than one (1) yen resulting from such calculation shall be rounded

- up.

 - ii. If a person granted stock acquisition rights or his or her heir can no longer exercise such rights under the "Agreement for Allotment of Stock Acquisition Rights," which is concluded between the Company and a relevant employee or a director of relevant subsidiary, based on a resolution made at this Meeting and by the Board of Directors, the Company may acquire the stock acquisition rights without consideration at the date separately specified by the Board of Directors of the Company.
- (g) In the event where the Company engages in a merger (limited to the case where the Company ceases to exist after the merger), absorption-type company split, incorporation-type company split, share exchange, or share transfer (hereinafter collectively referred to as the "Reorganization Actions"), the Company shall deliver to the holders of the remaining stock acquisition rights at the time the Reorganization Actions take effect (hereinafter referred to as the "Remaining Stock Acquisition Rights") the stock acquisition rights of the relevant stock companies listed in Article 236, paragraph (1), item (viii), (a) through (e) of the Companies Act (hereinafter referred to as the "Reorganized Company"), in each case in accordance with the conditions set forth below. In this event, the Remaining Stock Acquisition Rights shall become extinct and new stock acquisition rights in the Reorganized Company shall be issued.
